

PROFESSIONAL SUMMARY

Staff-level Systems Architect and Founding Engineer with 6+ years of professional software engineering experience (building software since 2012). Former technical lead on **Google Site Kit** at 10up, authoring 236 merged pull requests in Google's upstream repository and Google-approved technical design documents for an ecosystem powering **3M+ active production websites**. Lead architect of **Jasper**, designing a resilient distributed streaming pipeline and **Hosted Jasper**, a logically multi-tenant SaaS control plane with zero DevOps onboarding. Co-founder and platform architect of an outpatient physical rehabilitation clinic, directing physical facility launch and engineering its paperless clinical platform. Deep technical depth across TypeScript, Next.js (15/16), React, React Native / Expo, Node.js backend services, PostgreSQL, and Linux systems architecture.

CORE TECHNICAL COMPETENCIES

Languages & Runtimes: TypeScript, JavaScript (ESNext, Node.js), Python, PHP, Shell/Bash, SQL	Frontend & Web Platform: React (18/19), Next.js (15/16 App Router, Server Components), Turborepo, Tailwind CSS, Storybook
Mobile & Cross-Platform: React Native, Expo, Expo Router, React Native Paper, React Navigation, Native Android Bridges	Backend & Distributed Systems: Node.js (Fastify, Express), Hexagonal Architecture, Transactional Outbox, Concurrency Leases, Sharding
Databases & Persistence: PostgreSQL, MySQL, Prisma ORM, Drizzle ORM, Redis (caching, leases), Checksum Migrations	Testing & Quality: Jest, Vitest, React Testing Library, Playwright, BackstopJS Visual Regression Testing (VRT), PHPUnit
Linux Systems & DevOps: Arch Linux, systemd services, PipeWire, Docker, GitHub Actions CI/CD, GCP, Linux Systems Administration	Spoken Languages: English (Professional working proficiency), Bengali (Native)

PROFESSIONAL EXPERIENCE

Purrfect Software Limited • **Co-Founder & Head of Engineering**

Remote / Dhaka, Bangladesh • Oct 2025 – Present

- Directing architecture and technology operations across an 18-person multi-disciplinary team spanning software development, creative design, clinical specialists, and operations.
- Jasper Media Platform:** Spearheaded architecture and core engineering for a high-resilience Discord media platform and its multi-tenant SaaS evolution ([sakibtamim/Jasper](#)).
 - Media Streaming Pipeline:** Architected a resilient distributed audio streaming pipeline utilizing an externalized yt-dlp and FFmpeg daemon, reducing stream interruptions and upstream source throttling by >90%.
 - Hosted Jasper SaaS Control Plane:** Designed a logically multi-tenant SaaS control plane allowing community Discord servers to self-onboard with zero DevOps configuration. Engineered per-guild concurrency leases, distributed worker sharding, gateway intent isolation, and graceful drain contracts.
 - Interactive Web Client:** Built real-time Next.js web application with synchronized seek bars, alongside a typed Plugin SDK and checksum-tracked PostgreSQL migrations.
- Pawthy Secrets CLI:** Authored and open-sourced **Pawthy** ([@psl-oss/pawthy](#)), a zero-trust developer secret synchronization CLI adopted across all team repositories. Implemented hexagonal architecture, transactional outbox pattern, Fastify REST APIs, and Discord interactive approval webhooks.
- Sunshine Physio Platform:** *Lead Frontend Engineer (Web & Mobile)* • Sep 2026 – Present. Architecting clinical triage workflows and appointment scheduling for fully managed client engagement ([purrfectsoft/sunshine-physio-webapp](#)) across Next.js 16 web and React Native / Expo mobile with bilingual localization (English/Bengali), Vitest suites, Storybook components, and Drizzle ORM persistence.

Motion Mechanics Physiotherapy & Rehabilitation Hub • **Co-Founder & Platform Architect**

Savar, Dhaka • Oct 2025 – Sep 2026

- Clinic Operations Co-Management:** Co-founded modern physical outpatient rehabilitation clinic on CRP Road in Savar. Co-managed commercial lease negotiations, clinical space buildout, specialized medical hardware procurement, and clinical team staffing across 3 specialties: Neurology, MSK, and Paediatrics. Managed operational P&L and vendor relationships.
- mm-website Clinical Platform:** Engineered the clinic's proprietary operations and scheduling platform using Next.js 15, Turborepo, tRPC, Prisma ORM, PostgreSQL, TanStack Query, and Tailwind CSS with custom GCP re-auth wrappers and automated secrets deployment.

Family & Technical R&D Career Break • **Independent Systems Research & Family Commitments**

Savar, Dhaka • Sep 2024 – Oct 2025

- Planned career break from high-stakes client delivery to focus on family commitments, supporting spouse's degree completion, and fatherhood.
- Conducted independent research and self-directed upskilling in AI-amplified software engineering, local LLM orchestration, and modern full-stack web architectures; authored architectural blueprints and monorepo scaffolds that preceded Purrfect Software Limited.

10up • Senior JavaScript Engineer (React / Full-Stack) — Google Site Kit Lead

Remote (Global) • Aug 2021 – Sep 2024

- Dedicated technical lead engineer partnering directly with **Google** on **Site Kit by Google** ([google/site-kit-wp](https://google.com/site-kit-wp)), Google's official WordPress plugin active on **3M+ production websites**.
- Recruited directly on GitHub by 10up's Head of Engineering following foundational open-source component contributions.
- **Pull Request Authoring**: Authored **236 merged pull requests** directly into Google's upstream repository across Google Analytics 4 (GA4), Reader Revenue Manager, AdSense, and Search Console.
- **Technical Design Documents (Approved by Google & 10up Leadership)**:
 - **User Input v2**: Approved by Felix Arntz (Google Tech Lead), Mariya Moeva (Google Lead PM), and Evan Mattson (Associate Director of Engineering, 10up). Redesigning Site Kit's user goal-alignment questionnaire, state persistence, inline question editing, and personalized Key Metrics dashboard integration.
 - **Ad Blocking Recovery (ABR)**: Approved by Mariya Moeva (Google Lead PM) and Evan Mattson (Associate Director of Engineering, 10up). Architected end-to-end AdSense recovery tag placement, automated snippet injection, publisher messaging, and BackstopJS Visual Regression Testing.
- **Existing Tags Simplification (ETS) Epic**: Unified cross-product tag detection across Google Analytics (UA/GA4), Tag Manager, and AdSense. Decoupled tag parsing into reusable store factories (`createExistingTagStore`).
- **Process Leadership & Recognition**: Formulated team-wide "Mid-Point Review" process officially adopted across 10up's Site Kit engineering workflow to minimize PR churn; awarded the **10up Summit "Uppie" Award** (Reykjavik, Iceland, May 2023) for engineering excellence.
- **Mentorship & Discipline**: Technical orientation buddy for incoming engineers; co-authored 10up internal TypeScript training curriculum.

Star IT Limited & Aladdin Studios • JavaScript Engineer / Founder (Aladdin Studios)

Dhaka, Bangladesh • Feb 2020 – Aug 2021

- Directed engineering across production repositories spanning telemedicine, matrimony, and enterprise management systems in partnership with Star IT Limited.
- **Priyojon Care Telemedicine Suite**: Built `priyojon-app`, `priyojon-serviceapp`, and `priyojon-firebase`, providing live doctor-patient consultations, electronic prescription delivery, and home healthcare provider dispatch across React Native and Node.js.
- Authored foundational open-source component libraries on npm, leading directly to inbound recruitment by 10up's Head of Engineering.

Earlier Experience & Foundational Systems • Instructor & Independent Developer

Savar, Dhaka • 2012 – 2020

- **Savar Digital Polytechnic Institute**: Junior Instructor, Department of Computer Technology (Apr 2018 – Feb 2020). Lectured diploma students in C/C++, JavaScript, PHP, database schema design, and computer networking.
- **Early Systems & Freelance Development**: Built open-source WordPress plugins, raw PHP B2B licensing engines with cryptographic verification, and early hybrid mobile applications (Cordova/PhoneGap) while administering bare-metal Linux servers (2012 – 2017).

SELECTED SYSTEMS PROJECTS

- **Knot Mesh (kuasha420/knot-mesh):** Multi-node distributed Linux/Wayland workspace fabric connecting Arch Linux desktop, laptop, and Steam Deck via KRDP virtual monitors, remote PTY execution, and Linda Tuplespace batching.
- **Qualcomm 4G LTE Linux Modem Daemon (misly):** Linux desktop daemon for Qualcomm MDM9600 modems with PipeWire 8kHz narrowband cellular voice bridge native to baseband hardware.
- **Toddler Input Shield (jimha):** Linux evdev input interceptor for child hardware isolation in Python (kuasha420/jimha).

PUBLISHED OPEN-SOURCE LIBRARIES (~7,000 MONTHLY NPM DOWNLOADS)

Library / Tool	Registry	Monthly Downloads	Description
react-native-paper-phone-number-input	npm package	~4,100 / mo	International phone number input with search modal and flag picker for React Native Paper.
react-native-paper-toast	npm package	~2,140 / mo	Imperative toast notifications component integrated with Material Design / React Native Paper.
react-native-paper-alerts	npm package	~520 / mo	Cross-platform imperative alert and confirm modal dialogs for iOS, Android, and Web.
mst-persistent-store	npm package	~240 / mo	Persistent MobX-State-Tree store provider and custom hooks for React & React Native.
antigravity-manager-bin	Arch Linux AUR	AUR package	AUR package maintainer for Antigravity desktop tools.
jimha	GitHub	Linux evdev	Linux evdev input interceptor for child hardware isolation in Python.

EDUCATION & PROFESSIONAL TECHNICAL TRAINING

Diploma in Computer Technology (4-Year Engineering Diploma) – Savar Digital Polytechnic Institute, Dhaka Conferred 2017
B.Sc. in Computer Science & Engineering (6 of 10 Semesters Completed) – European University of Bangladesh Coursework 2018–2023
Professional Technical Training: Red Hat System Administration (RHCE curriculum) • Cisco Networking (CCNA curriculum) – IT Bangla Limited (2017–2018)

HONORS & THE HORIZON

Honors: 10up Summit "Uppie" Award Winner (Reykjavik, Iceland, May 2023) for engineering excellence on Google Site Kit.

The Horizon (ChickenTech): Advancing scalable, resilient production platforms today; on an eventual trajectory to automated precision agriculture at **ChickenTech**.
