

PROFESSIONAL SUMMARY

Entrepreneurial Founding Engineer and Technical Leader with 6+ years of professional engineering and leadership experience (building software since 2012). Proven ability to execute across the complete startup lifecycle: co-founded a modern outpatient physical rehabilitation clinic (managing physical facility launch, specialized medical equipment procurement, and clinical staffing while architecting its complete paperless software platform); lead architect of **Jasper**, designing a resilient distributed audio streaming pipeline and **Hosted Jasper**, a logically multi-tenant SaaS control plane with zero-devops onboarding; and authored technical design documents approved by Google engineering leadership for **Google Site Kit**, authoring 236 merged pull requests in Google's upstream repository for an ecosystem powering **3M+ active production websites**. Deep technical depth across TypeScript, Next.js (15/16), React Native, Node.js microservices, PostgreSQL, and Linux systems. The ideal technical anchor for early-stage and high-growth ventures requiring an autonomous builder from day one.

CORE TECHNICAL & LEADERSHIP CAPABILITIES

0-to-1 Product & Startup Execution: Greenfield architecture, rapid iterative prototyping, translating complex business models into production software, hiring & mentorship

Distributed Systems & SaaS Architecture: Concurrency leases, distributed worker sharding, transactional outbox pattern, real-time media streaming, multi-tenant control plane APIs

Developer Experience & Tooling: Author of Pawthy CLI (zero-trust secrets sync), automated deployment pipelines, custom monorepo scaffolds

Spoken Languages: English (Professional working proficiency), Bengali (Native)

Full-Stack & Mobile Engineering: Next.js (15/16 App Router, Server Components), React (18/19), React Native, Expo, Turborepo, tRPC, Tailwind CSS, Fastify

Database & Infrastructure: PostgreSQL, MySQL, Prisma ORM, Redis (caching, leases), Docker, GitHub Actions CI/CD, GCP, Linux systems administration

Physical Operations & Leadership: Commercial lease negotiations, clinical team management, operational unit economics, daily cash reconciliation

Testing & Quality Assurance: Jest, React Testing Library, BackstopJS Visual Regression Testing, Playwright, PHPUnit

LEADERSHIP & TECHNICAL EXPERIENCE

Purrfect Software Limited • Co-Founder & Head of Engineering Remote / Dhaka, Bangladesh • Jan 2024 – Present

- Jasper Media Platform:** Spearheaded architecture and core engineering for a high-resilience Discord media platform and its multi-tenant SaaS evolution ([sakibtamim/Jasper](#)).
- Media Streaming Pipeline:** Architected a resilient distributed audio streaming pipeline utilizing an externalized yt-dlp and FFmpeg daemon, eliminating stream dropouts and 403 throttling; implemented automated worker failover and concurrency lease coordination across voice channels.
- Hosted Jasper SaaS Control Plane:** Designed a logically multi-tenant SaaS control plane allowing community Discord servers to self-onboard with zero DevOps. Engineered per-guild concurrency leases, distributed worker sharding, gateway intent isolation, and graceful drain contracts.
- Interactive Web Client:** Built real-time Next.js web application (apps/web) with synchronized seek bars, alongside a typed Plugin SDK and checksum-tracked PostgreSQL migrations.
- Pawthy Secrets CLI:** Authored and open-sourced **Pawthy** ([@psl-oss/pawthy](#)), a zero-trust developer secret synchronization CLI with hexagonal architecture, transactional outbox pattern, Fastify REST APIs, and Discord approval webhooks.

Motion Mechanics Physiotherapy & Rehabilitation Hub • Co-Founder & Platform Architect Savar, Dhaka • Jan 2024 – Present

- Clinic Operations Co-Management:** Co-founded the physical outpatient clinic on CRP Road in Savar; co-managed facility launch, medical equipment procurement, and clinical team staffing across Neurology, MSK, and Paediatrics.
- mm-website Clinical Platform:** Engineered the clinic's proprietary operations and scheduling platform using Next.js 15, Turborepo, tRPC, Prisma ORM, PostgreSQL, TanStack Query, and Tailwind CSS. Built custom Google Cloud Platform re-auth wrappers and automated secrets deployment.

Client Projects & Linux Systems • Lead Frontend Engineer & Systems Architect Remote / Savar, Dhaka • Jan 2024 – Present

- Sunshine Physio Platform (purrfectsoft/sunshine-physio-webapp):** Lead Frontend Engineer on active client engagement. Architecting clinical triage workflows and appointment scheduling across Next.js 16 web and React Native / Expo mobile with bilingual localization (English/Bengali).
- Knot Mesh & Linux Systems:** Distributed multi-node Linux/Wayland workspace mesh connecting Arch Linux desktop, laptop, and Steam Deck via KRDP virtual display streaming and remote PTY execution. Built Qualcomm 4G LTE Linux modem daemon (*mis1ty*) with PipeWire 8kHz narrowband cellular voice bridge.

10up • Senior JavaScript Engineer (React / Full-Stack) — Google Site Kit Lead

Remote (Global) • Aug 2021 – Sep 2024

- Dedicated engineering lead partnering directly with **Google** on **Site Kit by Google** ([google/site-kit-wp](https://google.com/site-kit-wp)), Google's official WordPress plugin active on **3M+ production websites**.
- **Pull Request Authoring:** Authored **236 merged pull requests** in Google's upstream repository across Google Analytics 4 (GA4), Reader Revenue Manager, AdSense, and Search Console.
- **Technical Design Documents (Approved by Google Engineering Leadership):**
 - **User Input v2:** Approved by Felix Arntz (Google Tech Lead) and Mariya Moeva (Google Lead PM). Redesigned Site Kit's user goal-alignment questionnaire, local state persistence, inline question editing, and personalized Key Metrics dashboard integration.
 - **Ad Blocking Recovery (ABR):** Approved by Google PM and Evan Mattson (Associate Director of Engineering, 10up). Architected end-to-end AdSense recovery tag placement, automated snippet injection, publisher messaging, and BackstopJS Visual Regression Testing.
- **Existing Tags Simplification (ETS) Epic:** Unified tag detection across Google Analytics (UA/GA4), Tag Manager, and AdSense. Decoupled tag parsing into reusable store factories (`createExistingTagStore`).
- **Process Leadership & Recognition:** Formulated team-wide "Mid-Point Review" process officially adopted across 10up's Site Kit engineering workflow to minimize PR churn; awarded the **10up Summit "Uppie" Award** (Reykjavik, Iceland, May 2023) for engineering excellence.

Star IT Limited & Aladdin Studios • JavaScript Engineer / Founder (Aladdin Studios)

Dhaka, Bangladesh • Feb 2020 – Aug 2021

- Directed and engineered production repositories across telemedicine, matrimony, and enterprise management systems.
- **Priyojon Care Telemedicine Suite:** Built `priyojon-app`, `priyojon-serviceapp`, and `priyojon-firebase`, providing live doctor-patient consultations, electronic health records, and emergency dispatch across React Native and Node.js.
- Authored foundational open-source component libraries on npm, leading directly to inbound recruitment by 10up's Head of Engineering.

PUBLISHED OPEN-SOURCE LIBRARIES (~7.5K MONTHLY NPM DOWNLOADS)

react-native-paper-phone-number-input ~4,100/mo npm International phone number input with search modal and flag picker for React Native Paper.	react-native-paper-toast ~2,140/mo npm Imperative toast notifications component integrated with Material Design / React Native Paper.
react-native-paper-alerts ~520/mo npm Cross-platform imperative alert and confirm modal dialogs for iOS, Android, and Web.	mst-persistent-store ~240/mo npm Persistent MobX-State-Tree store provider and custom hooks for React & React Native.
antigravity-manager-bin Arch Linux AUR AUR package maintainer for Antigravity desktop tools.	jimha Linux evdev Linux evdev input interceptor for child hardware isolation in Python.

EDUCATION & PROFESSIONAL TECHNICAL TRAINING

Diploma in Computer Technology (4-Year Engineering Diploma) – Savar Digital Polytechnic Institute, Dhaka Conferred 2017

B.Sc. in Computer Science & Engineering (6 of 10 Semesters Completed) – European University of Bangladesh Coursework 2018–2023

Professional Technical Training: Red Hat System Administration (RHCE curriculum) • Cisco Networking (CCNA curriculum) – IT Bangla Limited (2017–2018)
