

PROFESSIONAL SUMMARY

Entrepreneurial Founding Engineer and Technical Leader with a 10-year track record of turning ambitious product visions into resilient, revenue-generating reality across digital platforms and physical operations. Proven ability to operate across the entire startup lifecycle: co-founded a modern outpatient physical rehabilitation clinic (managing physical facility launch, specialized medical equipment procurement, and clinical staffing while architecting its complete paperless software suite); lead architect of **Jasper**, designing its resilient multi-bot streaming engine ("One Mind, Many Bodies" with Automatic Feline Rotation) and **Hosted Jasper**, a logically multi-tenant SaaS control plane for zero-token community onboarding; and authored technical design documents approved by Google Tech Leads on **Google Site Kit** (shipping 230+ production pull requests active on **3M+ websites worldwide**). Deep hands-on expertise across TypeScript, Next.js 15, React Native, Node.js microservices, PostgreSQL, and Linux infrastructure. The ideal technical anchor for early-stage and high-growth companies requiring an autonomous builder who delivers from day one.

CORE TECHNICAL & LEADERSHIP CAPABILITIES

0-to-1 Product & Startup Execution: Greenfield architecture, rapid prototyping, business model translation, hiring & mentorship	Full-Stack & Mobile Engineering: Next.js 15 (App Router, Server Components), React, React Native, Expo, Turborepo, tRPC, Fastify
Distributed Systems & SaaS Architecture: Concurrency leases, sharding, transactional outbox, real-time media streaming, multi-tenant APIs	Database & Infrastructure: PostgreSQL, MySQL, Prisma ORM, Redis, Docker, GitHub Actions, GCP, Bare-Metal Linux (RHCE)
Developer Experience & Tooling: Author of Pawthy CLI (zero-trust secrets sync), automated release pipelines, custom monorepo scaffolds	Physical Operations & Leadership: Commercial lease negotiations, clinical team management, unit economics, regulatory compliance

LEADERSHIP & TECHNICAL EXPERIENCE

Purrfect Software Limited / Purrfect Universe • **Lead Systems Architect & Co-Founder** Remote / London, UK • 2024 – Present

- Jasper Dual-Engine Audio Platform:** Spearheaded architecture and core engineering for a high-resilience Discord media platform and its multi-tenant SaaS evolution (sakibtamim/Jasper).
- Streaming Daemon:** Eliminated persistent audio stream drops and YouTube 403 Forbidden errors by creating an externalized streaming daemon with yt-dlp and FFmpeg.
- "One Mind, Many Bodies" Architecture:** Designed Automatic Feline Rotation (AFR) and worker coordination, enabling multiple bot instances to stream across multiple voice channels concurrently under a unified controller.
- Distributed Sharding & Hosted Jasper:** Implemented runtime identity, sharding, and graceful drain contracts (HJ-0SS-11), along with per-guild AFR leases (HJ-0SS-04); architected the logically multi-tenant SaaS control plane for zero-token community onboarding while preserving open self-hosting.
- Interactive Web Client & Plugin SDK:** Built a real-time Next.js web application (apps/web) with synchronized seek bars, alongside a typed Plugin SDK (HJ-0SS-10, HJ-0SS-12).
- Pawthy Secrets CLI & Knot Mesh:** Built and open-sourced **Pawthy** (@psl-oss/pawthy), a zero-trust developer secret synchronization CLI with hexagonal architecture and Fastify APIs; built **Knot Mesh**, connecting Arch Linux / KDE Plasma 6 desktop, laptop, and Steam Deck.
- Client Platform Delivery (Sunshine Physio):** Architected and delivered a universal clinical care and triage platform (sunshine-physio-universalapp) as a fully managed client project of PSL, featuring high-concurrency booking, pain triage workflows, and bilingual localization (English/Bengali) across Next.js and React Native / Expo.

Motion Mechanics (Purrfect Universe) • **Co-Founder & Head of Technology / Operations** Savar, Dhaka • 2024 – 2026

- Clinic Launch & Physical Operations:** Co-founded and launched **Motion Mechanics Physiotherapy and Rehabilitation Hub**—a modern physical rehabilitation clinic and planet of Purrfect Universe on CRP Road in Savar. Directed commercial lease negotiations, clinical space buildout, specialized medical equipment procurement, and clinical team staffing across Neurology, MSK, and Paediatrics.
- Digital Healthcare Ecosystem (mm-website):** Built the clinic's proprietary operations and booking platform using Next.js 15, Turborepo, tRPC, Prisma ORM, PostgreSQL, TanStack Query, and Tailwind CSS. Built custom Google Cloud Platform re-auth wrappers and automated secrets deployment.

10up, Inc. / LLC • Senior JavaScript Engineer: React (Google Site Kit)Remote (Roseville, CA & New York, NY) • Aug 2021 – Sep 2024

- Dedicated technical lead engineer partnering directly with **Google** on **Site Kit by Google** (`google/site-kit-wp`), Google's official WordPress plugin active on **3M+ production websites worldwide**.
- **High-Impact Engineering Delivery:** Authored and merged **236 production pull requests** directly into Google's repository across Google Analytics 4 (GA4), Reader Revenue Manager (RRM), AdSense, and Search Console.
- **Technical Design Documents (Approved by Google Engineering Leadership):**
 - **User Input v2:** Approved by Felix Arntz (Google Tech Lead) and Mariya Moeva (Google Lead PM). Redesigned Site Kit's user goal-alignment questionnaire, local state persistence, inline question editing, and personalized Key Metrics dashboard integration.
 - **Ad Blocking Recovery (ABR):** Approved by Google PM and 10up Engineering Leadership. Architected end-to-end AdSense recovery tag placement, error-protection script injection, publisher message onboarding, and Visual Regression Testing (VRT).
- **Architecture & Standards:** Unified tag detection across Google Analytics (UA/GA4), Tag Manager, and AdSense via reusable store factories (`createExistingTagStore`).
- **Process Leadership:** Formulated the team-wide **"Mid-Point Review"** process officially adopted across 10up's Site Kit engineering workflow to minimize PR churn; awarded the **10up Summit "Uppie" Award** in Reykjavik, Iceland (2023) for engineering excellence.

Star IT Limited / Aladdin Studios • JavaScript Engineer / Founder (Aladdin Studios)Dhaka, Bangladesh • Feb 2020 – Aug 2021

- Directed and engineered **28 production repositories** across telemedicine, e-commerce, and enterprise ERP/CRM.
- **Priyojon Care Telemedicine Suite:** Built `priyojon-app`, `priyojon-serviceapp`, and `priyojon-firebase`, providing live doctor-patient consultations, electronic health records, and emergency dispatch.
- Authored foundational open-source component libraries (`react-native-paper-toast`, `react-native-paper-alerts`, `barikoi-unified`), leading directly to inbound recruitment by 10up's Head of Engineering.

NOTABLE OPEN-SOURCE WORK

react-native-paper-phone-number-input~4,100 dl/mo Standard international phone number input component for React Native Paper with country search and validation.	react-native-paper-toast~2,140 dl/mo Lightweight, imperative toast notifications component fully integrated with Material Design / React Native Paper.
react-native-paper-alerts~520 dl/mo Cross-platform imperative alert and confirm modal dialogs built for React Native Paper ecosystems.	jimha (Toddler Tactile OS Shield)Linux evdev / Python KDE/Linux application intercepting raw hardware input events to create sensory audio-visual feedback while protecting host OS.

EDUCATION & CERTIFICATIONS

Savar Digital Polytechnic Institute – Diploma in Computer Technology (4-Year Engineering Diploma)	Conferred 2017
European University of Bangladesh – B.Sc. in Computer Science & Engineering (Completed 60% of coursework; paused to focus on engineering delivery and family education)	Coursework 2018–2023
Certifications: Red Hat Certified Engineer (RHCE, 2018) • Cisco Certified Network Associate (CCNA, 2017)
