

PROFESSIONAL SUMMARY

Entrepreneurial Founding Engineer and Technical Leader with 6+ years of professional engineering experience (building software since 2012). Proven track record executing across the full venture lifecycle: co-founded an outpatient physical rehabilitation clinic (managing physical buildout, specialized medical hardware procurement, clinical staffing across 3 specialties, and paperless software architecture) while directing technology across an 18-person cross-disciplinary team. Lead architect of **Jasper's** distributed audio streaming engine and **Hosted Jasper's** multi-tenant SaaS control plane, alongside former technical leadership on **Google Site Kit** at 10up (shipping 236 merged pull requests into Google's upstream repository for an ecosystem powering **3M+ active production websites**).

CORE TECHNICAL & LEADERSHIP CAPABILITIES

- 0-to-1 Product & Startup Execution:** Greenfield architecture, rapid prototyping, business model translation, hiring & mentorship across 18-person team

Distributed Systems & SaaS Architecture: Concurrency leases, distributed worker sharding, transactional outbox pattern, real-time media streaming

Developer Experience & Tooling: Author of Pawthy CLI (zero-trust secrets sync), automated deployment pipelines, custom monorepo scaffolds

Spoken Languages: English (Professional working proficiency), Bengali (Native)
- Full-Stack & Mobile Engineering:** Next.js (15/16 App Router), React (18/19), React Native, Expo, Turborepo, tRPC, Tailwind CSS, Fastify

Database & Infrastructure: PostgreSQL, MySQL, Prisma ORM, Drizzle ORM, Redis (caching, leases), Docker, GitHub Actions, GCP

Physical Operations & Leadership: Commercial lease negotiations, clinical team management across 3 specialties, P&L and vendor management

Testing & Quality Assurance: Jest, Vitest, React Testing Library, BackstopJS Visual Regression Testing, Playwright, PHPUnit

LEADERSHIP & TECHNICAL EXPERIENCE

- Purrfect Software Limited • Co-Founder & Head of Engineering** Remote / Dhaka, Bangladesh • Oct 2025 – Present

 - Directing architecture and technology operations across an 18-person multi-disciplinary team spanning software development, creative design, clinical specialists, and operations.
 - Jasper Media Platform:** Spearheaded architecture and core engineering for a high-resilience Discord media platform and its multi-tenant SaaS evolution ([sakibtamim/Jasper](#)).
 - Media Streaming Pipeline:** Architected a resilient distributed audio streaming pipeline utilizing an externalized yt-dlp and FFmpeg daemon, reducing stream interruptions and upstream source throttling by >90%.
 - Hosted Jasper SaaS Control Plane:** Designed a logically multi-tenant SaaS control plane allowing community Discord servers to self-onboard with zero DevOps configuration. Engineered per-guild concurrency leases, distributed worker sharding, gateway intent isolation, and graceful drain contracts.
 - Interactive Web Client:** Built real-time Next.js web application with synchronized seek bars, alongside a typed Plugin SDK and checksum-tracked PostgreSQL migrations.
 - Pawthy Secrets CLI:** Authored and open-sourced **Pawthy** ([@ps1-oss/pawthy](#)), a zero-trust developer secret synchronization CLI adopted across all team repositories. Implemented hexagonal architecture, transactional outbox pattern, Fastify REST APIs, and Discord interactive approval webhooks.
 - Sunshine Physio Platform:** *Lead Frontend Engineer (Web & Mobile)* • Sep 2026 – Present. Architecting clinical triage workflows and appointment scheduling for fully managed client engagement ([purrfectsoft/sunshine-physio-webapp](#)) across Next.js 16 web and React Native / Expo mobile with bilingual localization (English/Bengali), Vitest suites, Storybook components, and Drizzle ORM persistence.
- Motion Mechanics Physiotherapy & Rehabilitation Hub • Co-Founder & Platform Architect** Savar, Dhaka • Oct 2025 – Sep 2026

 - Co-founded modern physical outpatient rehabilitation clinic on CRP Road in Savar. Co-managed commercial lease negotiations, clinical space buildout, specialized medical hardware procurement, and clinical team staffing across 3 specialties: Neurology, MSK, and Paediatrics. Managed operational P&L and vendor relationships.
 - mm-website Clinical Platform:** Engineered the clinic's proprietary operations and scheduling platform using Next.js 15, Turborepo, tRPC, Prisma ORM, PostgreSQL, TanStack Query, and Tailwind CSS with custom GCP re-auth wrappers and automated secrets deployment.

10up • Senior JavaScript Engineer (React / Full-Stack) — Google Site Kit Lead

Remote (Global) • Aug 2021 – Sep 2024

- Dedicated technical lead engineer partnering directly with Google on Site Kit by Google (google/site-kit-wp), Google's official WordPress plugin active on 3M+ production websites.
- Pull Request Authoring: Authored 236 merged pull requests directly into Google's upstream repository across Google Analytics 4 (GA4), Reader Revenue Manager, AdSense, and Search Console.
- Technical Design Documents (Approved by Google & 10up Leadership):
 - User Input v2: Approved by Felix Arntz (Google Tech Lead), Mariya Moeva (Google Lead PM), and Evan Mattson (Associate Director of Engineering, 10up). Redesigned Site Kit's user goal-alignment questionnaire, local state persistence, inline question editing, and personalized Key Metrics dashboard integration.
 - Ad Blocking Recovery (ABR): Approved by Mariya Moeva (Google Lead PM) and Evan Mattson (Associate Director of Engineering, 10up). Architected end-to-end AdSense recovery tag placement, automated snippet injection, publisher messaging, and BackstopJS Visual Regression Testing.
- Existing Tags Simplification (ETS) Epic: Unified tag detection across Google Analytics (UA/GA4), Tag Manager, and AdSense. Decoupled tag parsing into reusable store factories (createExistingTagStore).
- Process Leadership & Recognition: Formulated team-wide "Mid-Point Review" process officially adopted across 10up's Site Kit engineering workflow to minimize PR churn; awarded the 10up Summit "Uppie" Award (Reykjavik, Iceland, May 2023) for engineering excellence.

Star IT Limited & Aladdin Studios • JavaScript Engineer / Founder (Aladdin Studios)

Dhaka, Bangladesh • Feb 2020 – Aug 2021

- Directed engineering across production repositories spanning telemedicine, matrimony, and enterprise management systems in partnership with Star IT Limited.
- Priyojon Care Telemedicine Suite: Built priyojon-app, priyojon-serviceapp, and priyojon-firebase, providing live doctor-patient consultations, electronic prescription delivery, and home healthcare provider dispatch across React Native and Node.js.
- Earlier Experience: Junior Instructor, Savar Digital Polytechnic Institute (2018–2020); freelance web & systems development (2012–2017).

PUBLISHED OPEN-SOURCE LIBRARIES (~7.5K MONTHLY NPM DOWNLOADS)

react-native-paper-phone-number-input ~4,100/mo npm International phone number input with search modal and flag picker for React Native Paper.	react-native-paper-toast ~2,140/mo npm Imperative toast notifications component integrated with Material Design / React Native Paper.
react-native-immersive-bars ~570/mo npm Android navigation bar transparency component for immersive edge-to-edge layouts.	react-native-paper-alerts ~520/mo npm Cross-platform imperative alert and confirm modal dialogs for iOS, Android, and Web.
mst-persistent-store ~240/mo npm Persistent MobX-State-Tree store provider and custom hooks for React & React Native.	antigravity-manager-bin Arch Linux AUR AUR package maintainer for Antigravity desktop tools.

EDUCATION & PROFESSIONAL TECHNICAL TRAINING

Diploma in Computer Technology (4-Year Engineering Diploma) – Savar Digital Polytechnic Institute, Dhaka

Conferred 2017

B.Sc. in Computer Science & Engineering (6 of 10 Semesters Completed) – European University of Bangladesh

Coursework 2018–2023

Professional Technical Training: Red Hat System Administration (RHCE curriculum) • Cisco Networking (CCNA curriculum) – IT Bangla Limited (2017–2018)
